

PREFAB CATALOG

SCHOOLS

2025 CATALOG

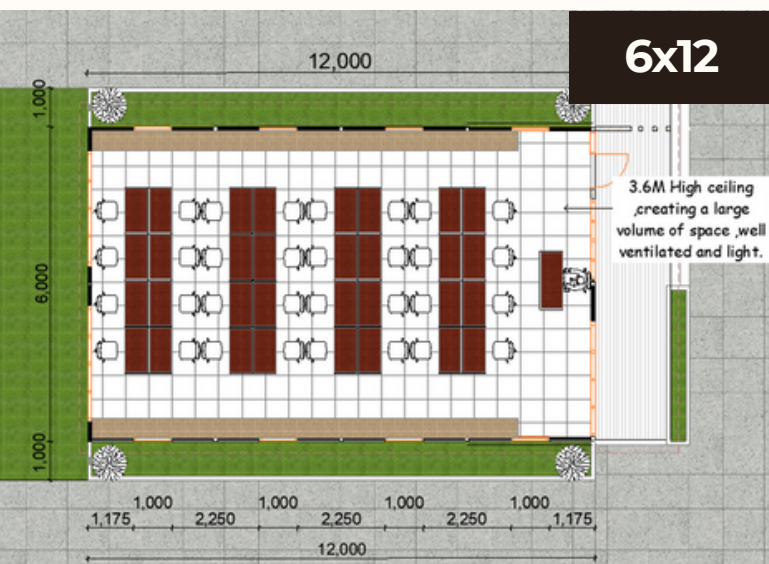

Explore our innovative prefab designs: from prefab classes, libraries, office, kitchens, halls, ablutions and accommodation.

Class Rooms

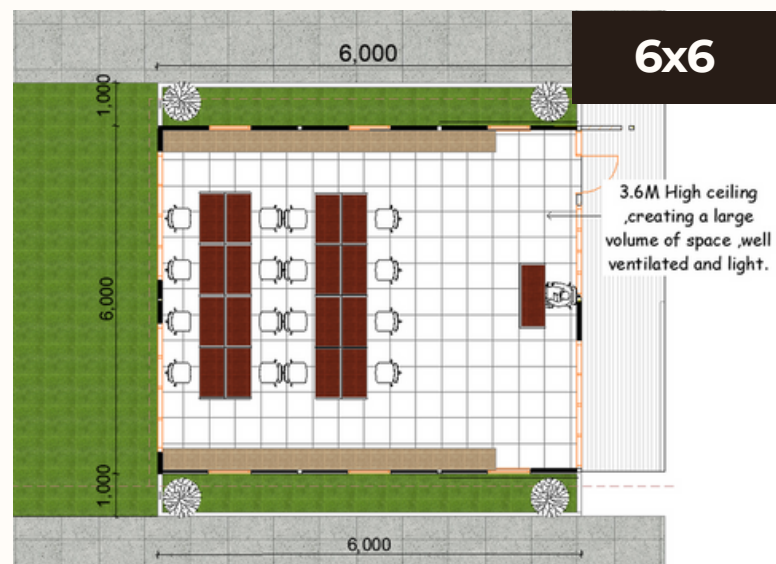

Classrooms units

Our prefab classroom units are modern, durable, and designed for comfort and efficiency. Options range from 6×6m units for up to 15 students to 6×12m units accommodating 30+ learners. Units can also be customized to your liking.

New 6x12 meters unit

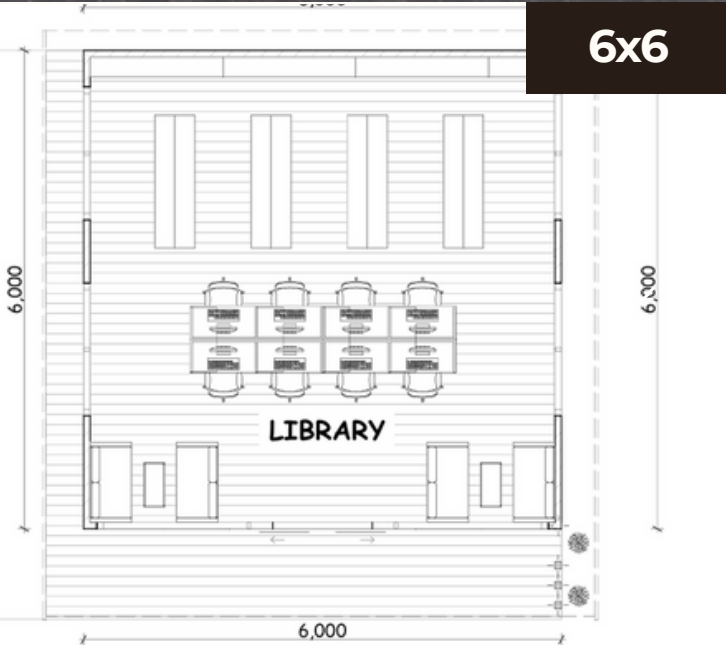

Spacious and versatile, our 6×12m classroom accommodates 30+ students with ease, ensuring ample room for teaching, interaction, and movement. Prefabricated for rapid installation, it combines modern aesthetics, thermal comfort, and durability, making it a cost-effective upgrade to traditional brick-and-mortar construction.

New 6x6 meters unit

Compact, efficient, and quick to set up, our 6×6m classroom is ideal of up to 15-20 learners. Built with high-quality, durable materials, it provides a comfortable and focused learning environment that's easy to maintain and perfectly suited for schools seeking affordable yet long-lasting solutions.

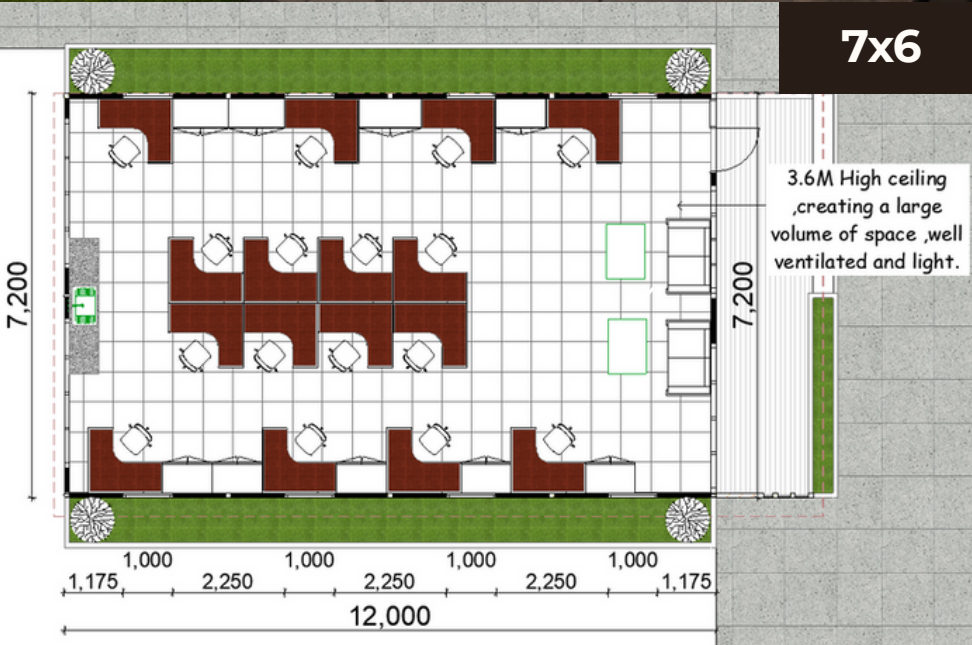

Library

New 6x6 meters unit

Our prefab library units are designed to create a quiet, comfortable, and inspiring space for reading and research. Built with modern finishes and excellent natural lighting, they provide an efficient and welcoming environment for learners.

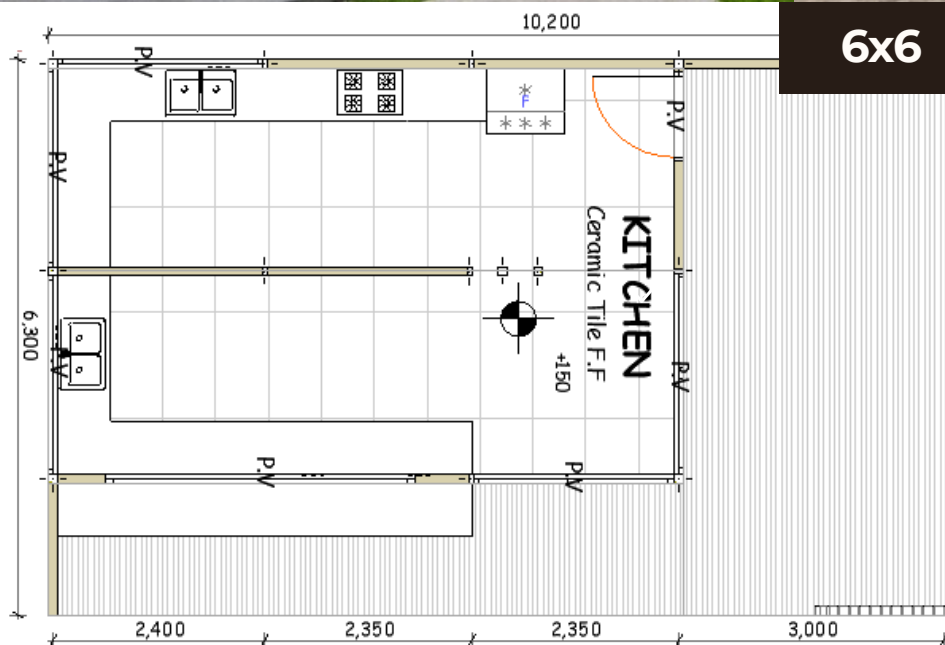

Office

New 7x12 meters unit

Our office prefab units combine practicality, comfort, and efficiency, making them ideal for administrative functions, staff meetings, and private consultations. Quick to set up and built to last, they're the perfect solution for any growing institution.

Kitchens

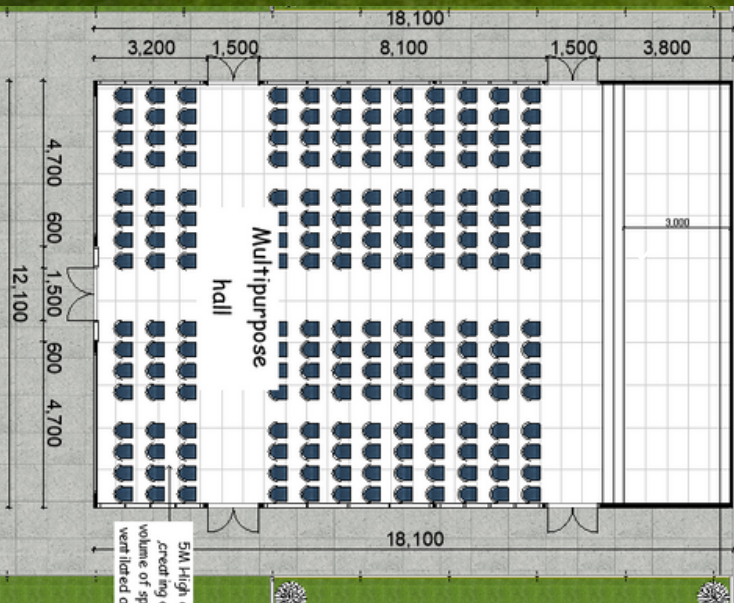

6x6

New modern prefab kitchen

Our prefab kitchen units are built for efficiency, hygiene, and durability, making them ideal for schools and institutions. Designed with easy-to-clean finishes, proper ventilation, and smart layouts, they support smooth meal preparation and service while minimizing operational costs. Prefabrication ensures quick installation and reliable long-term performance.

Kitchens

18x12

Prefab Hall

Our prefab halls offer versatile spaces perfect for assemblies, events, and multi-purpose school activities. With open, column-free interiors, they provide flexibility for seating arrangements, sports, and gatherings, all in a durable and quickly installed structure.

Accommodation

New Accommodation units

We offer both container and prefab solutions for student and staff housing. Our refurbished container dormitories are cozy, durable, and can comfortably accommodate up to 10 students, complete with lockers and efficient layouts. For larger needs, our prefab accommodation units offer customizable dimensions, creating spacious and modern living areas that can house many while maintaining comfort and aesthetic appeal.

Ablutions

We provide both container and prefab ablution solutions designed for efficiency and ease of maintenance. Our refurbished container units maximize capacity, with a 20-ft container hosting up to 6 units and a 40-ft container accommodating up to 12 units. For more flexibility, our prefab ablutions come as combined units, allowing you to choose between two toilets, two showers, or a mix of one shower and one toilet to suit your needs

Prefab ablution units

Our prefab ablution units are built for comfort, hygiene, and efficiency. Designed with easy-to-clean finishes and quick setup, they come in flexible layouts where you can choose between two toilets, two showers, or a combination of one shower and one toilet. Perfect for schools and institutions seeking durable and low-maintenance solutions.

Prefab security units

Our prefab security booths offer a safe, practical, and weatherproof workspace for security personnel. Compact and easy to install, they provide full visibility, durable finishes, and a professional design to ensure both functionality and comfort
